The Options Clearing Corporation (OCC) has compliance officer positions open in Chicago

**Senior Compliance Officer/Training:** Implement and execute a compliance training program within OCC, a systemically-important financial market utility (SIFMU) that plays a central role in the functioning of the global options, securities, and investment markets. This position provides an exciting opportunity for an individual building his or her career to be involved with the implementation and design of cutting-edge compliance training modules, including:

- Identifying, assessing, and prioritizing training needs for the development, delivery, and reporting of compliance training throughout OCC.
- Providing strategic insight regarding the overall training requirements for the OCC.
- Advising and interacting with business personnel and executives regarding how best to translate business/finance decisions and risk management practices into training modules.
- Implement best practices for coordinating and creating training programs for: process and controls improvements, policy management, Code of Conduct monitoring, and awareness using classroom, virtual and/or e-learning methods.
